## ARMENIA

### Moving up the trade facilitation ladder towards seamless international supply chains

[Cumulative implementation scores of core groups of measures; full implementation =100]

The level of implementation of trade facilitation measures in Armenia (40%) is below the level in Asia-Pacific (46.5%). It is also lower than the level of implementation in North and Central Asia (43%). Among the five core groups of trade facilitation measures, the most implemented in Armenia are “Transparency” measures (66.7%). The least implemented are “Cross-border paperless trade” measures (16.7%).

Implementation of “Transparency” measures is above both the regional and sub-regional averages. The measure least implemented in this area in Armenia is *Advance ruling*. Implementation of improved “Formalities” is lower than the regional and sub-regional average. The least implemented measures in this area are *Separation of Release and Clearance*, *Publication of average release times*, *TF measures for authorized operators* and *Expedited shipments*.

In “Paperless trade”, Armenia’s implementation is above the regional and sub-regional average. *E-Trade licenses* and *E-Air Cargo Manifests* are least implemented.

Armenia may focus its trade facilitation efforts in particular on full implementation of “Institutional arrangement and cooperation” measures, as well as on moving towards “Cross-border paperless trade”.
