## JORDAN

### Moving up the trade facilitation ladder towards seamless international supply chains

[Cumulative implementation scores of core groups of measures; full implementation =100]

The level of implementation of trade facilitation measures in Jordan (66.7%) is above the level in West Asia (48.4%). Among the five core groups of trade facilitation measures, the most implemented in Jordan are “Institutional arrangement and cooperation” measures (100%). The least implemented are “Cross-border paperless trade” measures (11.1%). “Transit” measures are well implemented (77.8%).

Implementation of “Formalities” measures is above the regional average. The least implemented measures in this area are *Acceptance of paper or electronic copies* and *Arrival Processing*. Implementation of improved “Transparency” is below the regional average. The least implemented measures in this area are *Publication of regulations on the internet*, *Advance ruling* and *Advance publication of regulation before implementation*.

In “Paperless trade”, Jordan’s implementation is above West Asia averages. *E-Preferential Certificate of Origin* is the least implemented measure.

Jordan may focus its trade facilitation efforts in particular on full implementation of “Transparency” measures, as well as on moving towards “Cross-border paperless trade”.
