NEW ZEALAND

Moving up the trade facilitation ladder towards seamless international supply chains

[Cumulative implementation scores of core groups of measures; full implementation =100]

The level of implementation of trade facilitation measures in New Zealand (83%) is above the level in Asia-Pacific (46.5%). Among the five core groups of trade facilitation measures, the most implemented in New Zealand are “Transparency” measures (100%). The least implemented are “Institutional arrangement and cooperation” measures (66.7%) and “Cross-border paperless trade” measures (66.7%).

All “Transparency” measures are fully implemented, and implementation is well above the regional average. Implementation of improved “Formalities” is likewise higher than the regional average. The least implemented measure in this area is *Publication of average release times and TF measures for authorized operators*.

In “Paperless trade”, New Zealand’s implementation is higher than the regional average. *E-Trade licenses, E-Air Cargo Manifests, and E-Application for Customs refunds* are least implemented.

New Zealand may focus its trade facilitation efforts in particular on full implementation of “Institutional arrangement and cooperation” measures, as well as on moving towards “Cross-border paperless trade”.
