QATAR

Moving up the trade facilitation ladder towards seamless international supply chains

[Cumulative implementation scores of core groups of measures; full implementation =100]

The level of implementation of trade facilitation measures in Qatar (66.7%) is above the level in West Asia (48.4.1%). The most implemented trade facilitation measures in Qatar are “transparency” measures (86.7%). The least implemented are “cross-border paperless trade” measures (22.2%). In “Transit”, Qatar’s measures are well implemented (68.4%) and they exceed the regional level of implementation by 24.2%.

In “Formalities”, Qatar’s implementation is above the regional average. However, in spite of the full score for *Expedited Shipments*, *Publication of average release time* and *separation of release and clearance*, other measures have not been fully implemented yet.

Implementation of “Paperless trade” measures is above the regional average. The least implemented measures for this group are *E-customs System* and *E-preferential certificate of origin*.

In “Institutional arrangement and cooperation”, Qatar’s implementation is below West Asia average. Particularly, *OGAs delegate controls to Customs* is the least implemented measure.

Qatar may focus its trade facilitation efforts in particular on full implementation of “Transparency” and “Formalities” measures, as well as on moving towards “Cross-border paperless trade”.
