SINGAPORE

Moving up the trade facilitation ladder towards seamless international supply chains

[Cumulative implementation scores of core groups of measures; full implementation =100]

The level of implementation of trade facilitation measures in Singapore (89%) is above the level in Asia-Pacific (46.5%). It also exceeds the level of implementation in South-East Asia (56%). Among the five core groups of trade facilitation measures, the most implemented in Singapore are “Transparency” measures (100%) and “Paperless trade” measures (100%). The least implemented are “Cross-border paperless trade” measures (61.1%). “Transit” measures are very well implemented (100%).

All “Transparency” measures are fully implemented, and implementation is well above both the regional and sub-regional averages. Implementation of improved “Formalities” is likewise higher than both the regional and sub-regional averages. The least implemented measure in this area is *Publication of average release times*.

All “Paperless trade” measures are likewise fully implemented, and implementation is higher than both the regional and sub-regional average.

Singapore may focus its trade facilitation efforts in particular on full implementation of “Formalities” measures, as well as on moving towards “Cross-border paperless trade”.
