

Joint United Nations Regional Commissions
Trade Facilitation and Paperless Trade Implementation Survey 2015

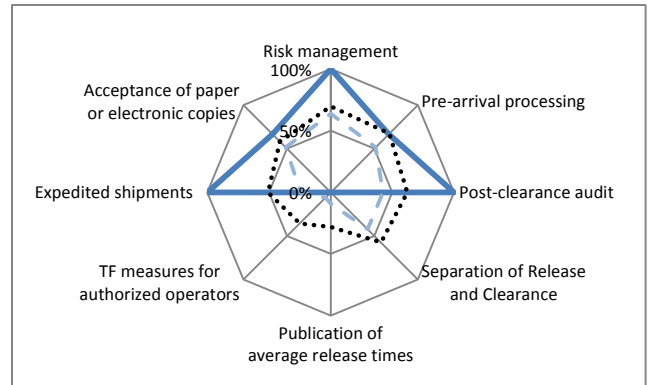

VANUATU

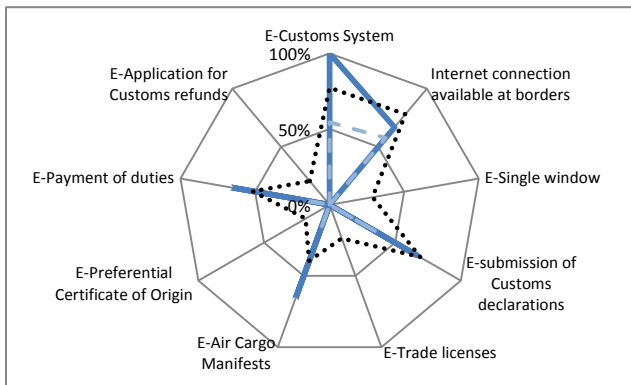

Transparency

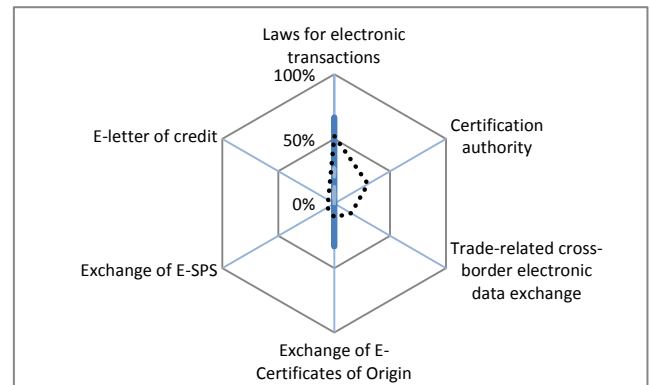

Formalities

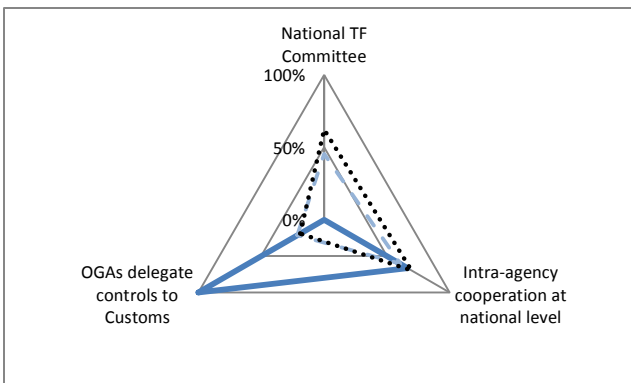

Paperless trade

Cross-border paperless trade

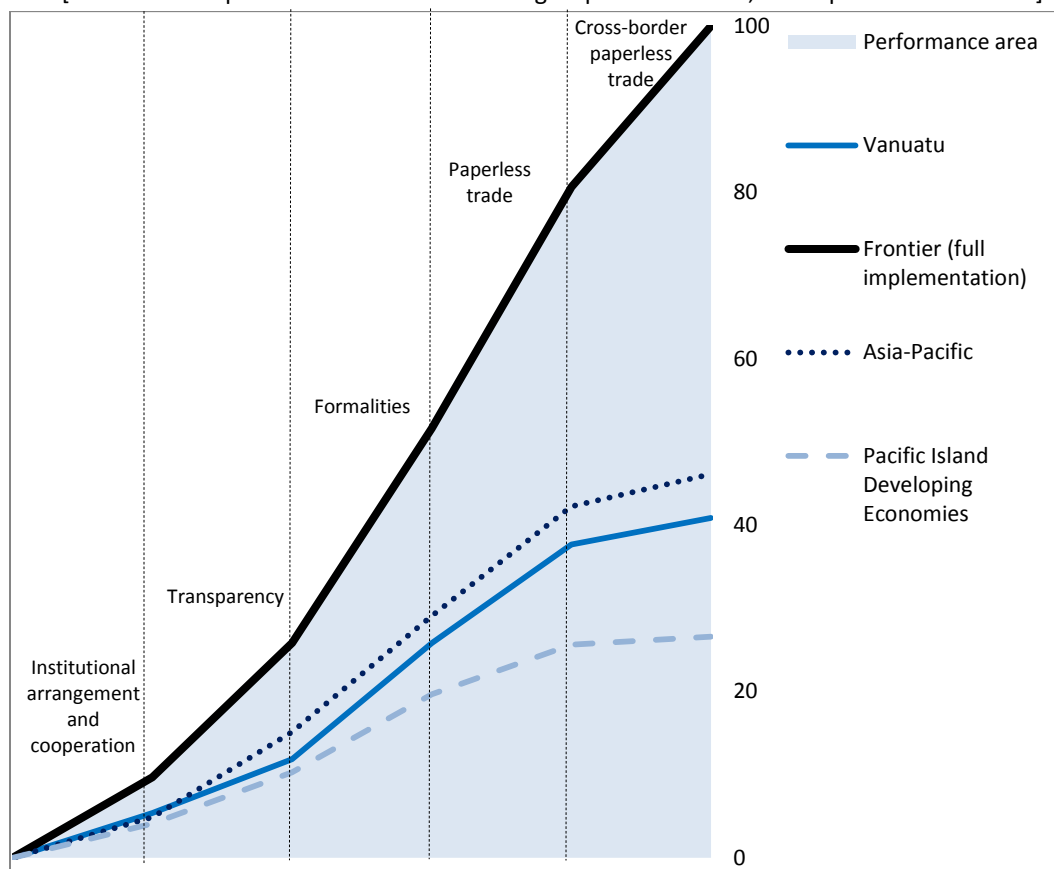

Institutional arrangement and cooperation

VANUATU

Moving up the trade facilitation ladder towards seamless international supply chains

[Cumulative implementation scores of core groups of measures; full implementation =100]

The level of implementation of trade facilitation measures in Vanuatu (41%) is below the level in Asia-Pacific (46.5%). It is however higher than the level of implementation in Pacific Island Developing Economies (28.5%). Among the five core groups of trade facilitation measures, the most implemented in Vanuatu are “Institutional arrangement and cooperation” measures (55.6%). The least implemented are “Cross-border paperless trade” measures (16.7%).

Implementation of “Transparency” measures is below the regional average, but above the sub-regional average. The measures least implemented in this area in Vanuatu are *Advance ruling* and *Independent appeal mechanism*. Implementation of improved “Formalities” is higher than both the regional and sub-regional averages. The least implemented measures in this area are *Separation of release and clearance*, *Publication of average release times* and *TF measures for authorized operators*.

In “Paperless trade”, Vanuatu’s implementation is lower than the regional average, but higher than the sub-regional average. *E-Single window*, *E-Trade licenses*, *E-Preferential Certificate of Origin* and *E-Application for Customs refunds* are least implemented.

Vanuatu may focus its trade facilitation efforts in particular on implementation of “Transparency” measures, as well as on moving towards “Cross-border paperless trade”.
